This book explores Kafka's sometimes surprising connections with key Italian writers, from Italo Calvino to Elena Ferrante, who shaped Italy's modern literary landscape. What do Cesare Pavese, Beppe Fenoglio and Primo Levi have in common? Apart from their obvious Piedmontese origins, they and other writers coming from this Italian region share a certain tendency towards multilingualism, which is a characteristic that has not been comprehensively investigated over the years. This study presents a linguistic analysis of a group of modern and contemporary narratives written by Piedmontese authors. The novels and short stories here examined are notable for the intriguing way in which they move between a variety of idioms – Standard Italian, regional vernaculars, English and pastiches (with rare excursions into French). With the support of linguistic and philosophical theories on the relation between identity, alterity and language, the book demonstrates how the use of non-standard parlances is fundamental in both reinforcing the sense of belonging to specific social groups and highlighting the presence of dissimilar identities and 'other' cultures. A sociolinguistic study and an analysis of the political and historical context of the region are also provided in order to

illustrate how the combination of different varieties in literature reflects the region's peripheral position, as well as the political and social changes that have occurred in Piedmont since the nineteenth century. This book fills a notable gap, and casts new light on Piedmontese literature. On June 23rd, 1950, Pavese, Italy's greatest modern writer received the coveted Strega Award for his novel *Among Women Only*. On August 26th, in a small hotel in his home town of Turin, he took his own life. Shortly before his death, he methodically destroyed all his private papers. His diary is all that remains and for this the contemporary reader can be grateful. Contemporary speculation attributed this tragedy to either an unhappy love affair with the American film star Constance Dawling or his growing disillusionment with the Italian Communist Party. His *Diaries*, however, reveal a man whose art was his only means of repressing the specter of suicide which had haunted him since childhood: an obsession that finally overwhelmed him. As John Taylor notes, he possessed something much more precious than a political theory: a natural sensitivity to the plight and dignity of common people, be they bums, priests, grape-pickers, gas station attendants, office workers, or anonymous girls picked up on the street (though to women, the author could--as he admitted--be as misogynous as he was affectionate). Bitter and incisive, *This Business of Living*, is both moving and painful to read and stands with James Joyce's *Letters* and Andre Gide's *Journals* as one of the great literary testaments of the twentieth century. Documento inconsueto e dalla fisionomia enigmatica, galleria di trappole e interdetti, *Il mestiere di vivere* si presenta come il diario di un esploratore che si affrettò ad annotare le sue periodiche o improvvise scoperte: in queste pagine, compilate tra il 6 ottobre 1935 (dal confino a Brancaleone) e il 18 agosto 1950 (appena nove giorni prima del suicidio), Pavese non avanza per sviluppi, ma ragiona a strappi, a balzi, in un « ripullulare imprevisto di pensieri » che definiscono i « grandi filoni » della sua vita interiore. Questa nuova edizione ci guida alla comprensione dei meccanismi che regolano il funzionamento di un'opera dove « tutto è ambivalente », dove bene e male sono fatti della stessa materia, dove – pur di sedurre gli eletti destinatari del proprio « melodramma » – maschere, trucchi e inganni non sono preclusi. Il volume contiene anche: *Un viaggio felicissimo* (diario 1922), *Frammenti della mia vita trascorsa* (diario 1926-28) e il contro verso *Taccuino segreto*. This bibliography lists English-language translations of twentieth-century Italian literature published chiefly in book form between 1929 and 1997, encompassing fiction, poetry, plays, screenplays, librettos, journals and diaries, and correspondence. We cannot explain why people kill themselves. There are no necessary or sufficient causes for suicide, so rather than explaining suicide (looking for causes), perhaps we can understand suicide, at least in one individual, a phenomenological approach. This book begins by examining the diaries from eight individuals who killed themselves. Using qualitative analyses, supplemented in some cases by quantitative analyses, Lester seeks to uncover the unique thoughts and feelings that led these individuals to take their own lives. Lester has also studied suicide notes, the poems of those who died by suicide (both famous poets and unpublished poets), the letters written by suicides, blogs and twitter feeds, and one tape recording of

a young man who killed himself just an hour or so after he recorded the tape. This book will give you insights into the “I” of the storm, the suicidal mind. David Lester has PhD’s from Cambridge University (UK) and Brandeis University (USA). He is a former President of the International Association for Suicide Prevention and a leading scholar on suicide, murder, the fear of death and other topics and thanatology. This volume on Cesare Pavese is published on the 72nd anniversary of his death, and it aims to explore new perspectives to study this relevant intellectual. The multifaceted personality of Cesare Pavese took many different forms and allowed him to explore different aspects of literary production. He was a poet, a novelist, an essayist, a translator of some of the most important American writers of the 19th and 20th centuries. He also worked for 20 years at Einaudi Publishing House, where he became one of the most relevant figures of the company and the Italian literary and cultural scene between the 1930s and 1950s. This collection provides new perspectives of study by focusing on different aspects of his job and by analyzing the strong connections between his personal and professional life. It will appeal to graduate students and scholars in contemporary Italian literature. Providing the most complete record possible of texts by Italian writers active after 1900, this annotated bibliography covers over 4,800 distinct editions of writings by some 1,700 Italian authors. Many entries are accompanied by useful notes that provide information on the authors, works, translators, and the reception of the translations. This book includes the works of Pirandello, Calvino, Eco, and more recently, Andrea Camilleri and Valerio Manfredi. Together with Robin Healey's *Italian Literature before 1900 in English Translation*, also published by University of Toronto Press in 2011, this volume makes comprehensive information on translations from Italian accessible for schools, libraries, and those interested in comparative literature. For centuries, investigations into the origins of words were entwined with investigations into the origins of humanity and the cosmos. With the development of modern etymological practice in the nineteenth century, however, many cherished etymologies were shown to be impossible, and the very idea of original 'true meaning' asserted in the etymology of 'etymology' declared a fallacy. Structural linguistics later held that the relationship between sound and meaning in language was 'arbitrary', or 'unmotivated', a truth that has survived with small modification until today. On the other hand, the relationship between sound and meaning has been a prime motivator of poems, at all times throughout history. *The Life of Words* studies a selection of poets inhabiting our 'Age of the Arbitrary', whose auditory-semantic sensibilities have additionally been motivated by a historical sense of the language, troubled as it may be by claims and counterclaims of 'fallacy' or 'true meaning'. Arguing that etymology activates peculiar kinds of epistemology in the modern poem, the book pays extended attention to poems by G. M. Hopkins, Anne Waldman, Ciaran Carson, and Anne Carson, and to the collected works of Geoffrey Hill, Paul Muldoon, Seamus Heaney, R. F. Langley, and J. H. Prynne. *After Words* investigates how the suicide of an author informs critical interpretations of the author's works. Suicide itself is a form of authorship as well as a revision, both on the part of the author, who has written his or

her final scene and revised the 'natural' course of his or her life, and on the part of the reader, who must make sense of this final act of writing. Elizabeth Leake focuses on twentieth-century Italian writers Guido Mor-selli, Amelia Rosselli, Cesare Pavese, and Primo Levi, examining personal correspondence, diaries, and obituaries along with popular and academic commemorative writings to elucidate the ramifications of the authors' suicides for their readership. She argues that authorial suicide points to the limitations of those critical stances that exclude the author from the practice of reading. In this innovative and accessible assessment of some of the key issues of authorship, Leake shows that in the aftermath of suicide, an author's life and death themselves become texts to be read. Il libro ripercorre i momenti essenziali della riflessione sulla propria anima di Cesare Pavese e si propone lo scopo di manifestare, attraverso la scrittura del mestiere di vivere, gli aspetti misteriosi ed enigmatici che, dentro il silenzio del dolore e della sofferenza, approderanno alla fatalità già scritta dell'esito finale. This Handbook offers an authoritative and up-to-date collection of original essays bringing together ground breaking research into the development of contemporary poetry in Britain and Ireland. "Four major Italian writers raised in the shadow of fascism - Cesare Pavese, Primo Levi, Natalia Ginzburg and Francesca Sanvitale - are the focus of this examination of the 'unsaid' in modern Italian narrative. Post-war and free of official censorship, these writers nonetheless show signs of constraint and omission in their work. Are the gaps a form of concealment? In this lucid and wide-ranging study, which embraces key areas of modern literary investigation - Holocaust writing, political guilt, autobiography, feminism and film theory - the author addresses the question of self-censorship and traces its course in contemporary Italian writing." After almost seven centuries, Dante endures and even seems to haunt the present. Metamorphosing Dante explores what so many authors, artists and thinkers from varied backgrounds have found in Dante's oeuvre, and the ways in which they have engaged with it through rewritings, dialogues, and transpositions. By establishing trans-disciplinary routes, the volume shows that, along with a corpus of multiple linguistic and narrative structures, characters, and stories, Dante has provided a field of tensions in which to mirror and investigate one's own time. Authors explored include Samuel Beckett, Walter Benjamin, André Gide, Derek Jarman, LeRoi Jones/Amiri Baraka, James Joyce, Wolfgang Koeppen, Jacques Lacan, Thomas Mann, James Merrill, Eugenio Montale, Pier Paolo Pasolini, Cesare Pavese, Giorgio Pressburger, Robert Rauschenberg, Vittorio Sereni, Virginia Woolf. This is the first substantial reference work in English on the various forms that constitute "life writing." As this term suggests, the Encyclopedia explores not only autobiography and biography proper, but also letters, diaries, memoirs, family histories, case histories, and other ways in which individual lives have been recorded and structured. It includes entries on genres and subgenres, national and regional traditions from around the world, and important auto-biographical writers, as well as articles on related areas such as oral history, anthropology, testimonies, and the representation of life stories in non-verbal art forms. In the half-century following Pavese's death, much that was written about him sought principally to understand and

define his complex character, and to determine his place within the twentieth-century Italian literary canon. Latterly, there appears to have been a significant shift in focus towards a closer reading of individual works or aspects or periods of his writing, the better to analyse and reveal the subtleties and depth of his vision. This present collection of ten essays conforms broadly with this tendency. It is organised chronologically with regard to Pavese's life and works so as to convey a sense of the development of a writer, over and above the particular concerns of any given essay. The book features contributions from many leading experts on Pavese. An archival fiction of listening, where landscape is reinvented and abstracted across autobiographical narratives of sounds, books, pictures and songs. This book seeks to redefine, recontextualize, and reassess Italian neorealism - an artistic movement characterized by stories set among the poor and working class - through innovative close readings and comparative analysis. "This study gauges the effects that Walt Whitman's poetry had in Italy in the period from 1870 to 1945: the reactions it provoked, the aesthetic and political agendas it came to sponsor, and the creative responses it facilitated. But it also investigates the contexts and causes of Whitman's success abroad, in the lives, backgrounds, beliefs, and imaginations of the people who encountered it. Ultimately, it chronicles the evolution of a literature intent on regenerating itself and moving toward modernity. Bernardini gives particular attention to women writers and noncanonical writers often excluded from previous discussions of Whitman's Italian reception. The book is grounded in archival studies and examination of primary documents, which led to a series of noteworthy discoveries. While the main focus is on the Italian literary scene, the history of the reception retraced here is constantly evaluated in relation to other cultures that were also intent, in those same years, on reading and recreating Whitman. Studying Whitman's reception from a transnational perspective shows how many countries were simultaneously carving out a new modernity in literature and culture. In this sense, Bernardini not only shows the interconnectedness of various international agents in understanding and contributing to the spread of Whitman's work, but, more largely, a constellation of similar pre-modernist and modernist sensibilities. This stands in contrast to the notion of sudden innovation: modernity was not easy to achieve, and most of all, it did not imply a complete refusal of tradition. Instead, a continuous and fruitful negotiation between tradition and innovation, and not a sudden break with the literary past, is at the very heart of the Italian and transnational reception of Whitman"-- The Facts On File Companion to the World Novel : 1900 to the Present is a new two-volume reference guide featuring more than 600 entries on the world's greatest modern novels and novelists, including everything from acknowledged.
