The Internationalisation of Legal Education Sep 23 2020 This volume provides an overview of the state of internationalisation of legal education (IOLE) in many civil law and common law countries. It provides a picture of the status of the debate about the shape and degree of internationalisation in the curriculum in the different countries, and the debates surrounding the adoption of a more international approach to legal education in the contemporary world. It is a compilation of the National Reports submitted for the August 2014 Congress of the IACL held at Vienna, and contains an introductory general report. Together, the reports examine such questions as: Why is the topic of internationalization of legal education on the agenda now? Why is it a relevant subject for examination today? Does the topic generate the same level of interest everywhere in the world? Is enthusiasm for IOLE mainly driven by the academic sector, by government, by multinational corporations? Is the interest closely linked with the globalization of the practice of law? Or is globalisation of law itself something of a myth, or a reality reserved for only a very small percentage of practising lawyers around the world? The general and national reports make clear that there is indeed widespread interest in IOLE, and numerous disparate initiatives around the world. Nonetheless, some National Reporters state that the topic is simply not on the agenda at all. All in all, the volume shows that the approaches to internationalisation are many and varied, but every jurisdiction recognises the importance of introducing aspiring lawyers to a more integrated global environment.

The Abe Doctrine Jun 01 2021 This book focuses on Prime Minister Abe's policy toward international peace and security proposed in 2013 under the basic principle of 'proactive contribution to peace'. To this end, this book investigates Prime Minister Abe's policy-making process of the Peace and Security Legislation, which transformed Japan's security policy and enabled Japan to exercise the right of 'collective self-defense', which used to be 'unconstitutional'. This book evaluates the implications of the Peace and Security Legislation on three fronts, domestic, bilateral, and international, by analyzing Japan's Ballistic Missile Defense (BMD) program, the Japan-US alliance system, and Japan's policy on international peacekeeping operations in South Sudan. This book is one of the first contributions to the research on Japan's foreign and security policy under the Shinzo Abe administration and will be of interest to scholars, policymakers, and students of Japan, Japanese politics and international relations of the Asia-Pacific region.

Decentralization, Regional Diversity, and Conflict Feb 26 2021 This edited volume focuses on the links between the ongoing crisis in and around Ukraine, regional diversity, and the reform of decentralization. It provides in-depth insights into the historical constitution of regional diversity and the evolution of center-periphery relationships in Ukraine, the legal qualification of the conflict in Eastern Ukraine, and the role of the decentralization reform in promoting conflict resolution, as well as modernization, democratization and European integration of Ukraine. Particular emphasis lies on the securitization of

both regional diversity issues and territorial self-government arrangements in terms of Russia's support for self-proclaimed Donetsk and Luhansk People's Republics. The volume captures the complexity of contemporary "hybrid" conflicts, involving both internal and external aspects, and the hybridization and securitization of territorial self-governance solutions. It thus provides an important contribution to the debate on territorial self-government and conflict resolution.

The Exercise of Prosecutorial Discretion at the International Criminal Court Sep 16 2022 With the ICC's unprecedented scope of jurisdiction and limited resources comes the need to select situations and cases that the Prosecutor wishes to pursue. As the Prosecutor selects her situations and cases, she constantly makes choices, afforded to her by the statutory discretion she enjoys as a Prosecutor. The purpose of this study is to investigate three aspects of the Prosecutor's discretion: What is the extent of the Prosecutor's discretion in pursuing individual situations and cases? How much does the Prosecutor adhere to and further the objectives of the ICC in the exercise of her discretion? To what degree should the Prosecutor use policy considerations in selecting situations and cases to pursue?
