Loose Leaf Version for Human Biology Nov 11 2019 Dr. Sylvia Mader's succinct, precise writing style. Sylvia's writing is what has earned her a reputation as one of the most successful introductory biology textbook authors ever, and it is the most compelling feature of this text. Updated Boxed Readings Throughout --Human Biology features three different types of boxed readings. Theses readings have been thoroughly updated by Dr. Mader, as well as experts in the field, throughout the book to remain current. A complete set of chapter learning aids includes a listing of chapter concepts, brief concept summaries within the chapter, boldface key terms, summary, and objective questions. Students value tools within the text that help them grasp the concepts. Customize this book through Primis Online! This title is tentatively planned to be part of the Primis Online Database: www.mhhe.com/primis/online Benefit : Professors can customize this book to meet their exact needs and mix and match with other items on Primis Online--allowing them maximum choice and flexibility. Instructors can choose between two delivery formats: custom printed books (in black and white) or custom eBooks (in color). Emphasis on Homeostasis -- Homeostasis is emphasized throughout the text. The homeostasis sections at the end of specific chapters and the accompanying homeostasis illustrations, have been revised for greater clarity and explain in depth how the body systems work together to maintain homeostasis.

Biology May 30 2021 Biology is a comprehensive introductory biology textbook for non-majors or mixed-

majors courses that covers biology in a traditional order from the structure and function of the cell to the organization of the biosphere. The book, which centers on the evolution and diversity of organisms, is appropriate for a one- or two-semester course. It's no wonder that Sylvia Mader's Biology continues to be a text that's appreciated as much by instructors as it is by the students who use it. The ninth edition is the epitome of Mader's expertise: Its concise, precise writing uses an economy of words to present the material as succinctly and clearly as possible, thereby enabling students -- even non-majors -- to understand the concepts without necessarily asking the instructor to explain further.

Lab Manual for Human Biology Nov 04 2021 Business Communication is the newest Business Communication textbook that was created with students and professors needs in mind. A unique approach to a hands-on course, written by the co-authors of Business Communication: Making Connections in a Digital World, 12/e, provides both student and instructor with all the tools needed to navigate through the complexity of the modern business communication environment.

Lab Manual for Biology Jan 26 2021 THE MADER/WINDELSPECHT STORY... The thirteenth edition of Biology is a traditional, comprehensive introductory biology textbook, with coverage from Cell Structure and Function to the Conservation of Biodiversity. The book, which centers on the evolution and diversity of organisms, is appropriate for any one- or two-semester biology course. Biology, 13th Edition is the epitome of Sylvia Mader's expertise. Its concise,

precise writing-style employs lucid language to present the material as succinctly as possible, enabling students--even non-majors--to master the foundational concepts before coming to class. "Before You Begin", "Following the Themes", and "Thematic Feature Readings" piece together the three major themes of the text--evolution, nature of science, and biological systems. Students are consistently engaged in these themes, revealing the interconnectedness of the major topics in biology. Sylvia Mader typifies an icon of science education. Her dedication to her students, coupled with her clear, concise writing-style has benefited the education of thousands of students over the past three decades. The integration of the text and digital world has been achieved with the addition of Dr. Michael Windelspecht's facility for the development of digital learning assets. For over ten years, Michael served as the Introductory Biology Coordinator at Appalachian State University--a program that enrolls over 4,500 non-science majors annually. Michael is the lead architect in the design of McGraw-Hill's Connect media content for the Mader series. These assets allow instructors to easily design interactive tutorial materials, enhance presentations in both online and traditional environments, and assess the learning objectives and outcomes of the course.
