"Consist[s] of the decisions of the United States Court of Military Appeals, and decisions of the Judge Advocates General of the Army, Navy, and Air Force, The General counsel of the Treasury as the Judge Advocate

General of the Coast Guard and The Boards of Review in their respective offices." -- Pref. Excerpt from Observations on Military Law: And the Constitution and Practice of Courts Martial, With a Summary of the Law of Evidence, as Applicable to Military Trials; Adapted to the Laws, Regulations and Customs of the Army and Navy of the United States Since the legal establishment of the Army and Navy of the United States, there has been no work produced, written for the express purpose, in conformity with the laws, regulations, and customs of the services, and intended as a guide for the administration of military justice. The works to which reference was generally made to assist the judgment of members of courts-martial, and to supply the want of experience which all felt to a greater or less degree, were the productions of a foreign country and intended for the government or direction of foreign military bodies. It is true, that those books, generally, if not always, of English origin, embodied the leading principles of administrative justice; and from the similarity or identity of the laws of the two countries in many respects, were suited to some extent to fulfil the wants which led to the study of them: - But still there was a deficiency - a deficiency which was a source of frequent error, and one which could only find a remedy in a rule, or a system of rules by which the practice of courts-martial in our service should be consistently regulated. The differences which necessarily exist, and which distinguish the practices of the American and British Services were not always discerned or appreciated by the young officer who resorted to English treatises on military jurisprudence to determine doubts or questions which arose in the course of his judicial duties; - and hence errors were frequent; the practice of courts-martial was both inconsistent and contradictory; and no settled interpretation was received of either the law or modes of procedure. A timely, provocative account of how military justice has shaped American society since the nation's beginnings. Historian and former soldier Chris Bray tells the sweeping story of military justice from the earliest days of the republic to contemporary arguments over using military courts to try foreign terrorists or soldiers accused of sexual assault. Stretching from the American Revolution to 9/11, Court-Martial recounts the stories of famous American court-martials, including those involving President Andrew Jackson, General William Tecumseh Sherman, Lieutenant Jackie Robinson, and Private Eddie Slovik. Bray explores how encounters of freed slaves with the military justice system during the Civil War anticipated the civil rights movement, and he explains how the Uniform Code of Military Justice came about after World War II. With a great eye for narrative, Bray hones in on the human elements of these stories, from Revolutionary-era militiamen

demanding the right to participate in political speech as citizens, to black soldiers risking their lives during the Civil War to demand fair pay, to the struggles over the court-martial of Lieutenant William Calley and the events of My Lai during the Vietnam War. Throughout, Bray presents readers with these unvarnished voices and his own perceptive commentary. Military justice may be separate from civilian justice, but it is thoroughly entwined with American society. As Bray reminds us, the history of American military justice is inextricably the history of America, and *Court-Martial* powerfully documents the many ways that the separate justice system of the armed forces has served as a proxy for America's ongoing arguments over equality, privacy, discrimination, security, and liberty. Excerpt from *Digest of Davis Military Law of the United States and the Manual for Courts-Martial, Including the Articles of War, Rev. To August 29, 1916* This little compilation has been prepared for the purpose of presenting succinctly certain basic facts of Military Law and the procedure of courts-martial which the lapse of time frequently renders hazy. It consists of a *Digest of Davis' Military Law of the United States*, of *Questions and Answers on the Manual for Courts-Martial*, and the *Articles of War* as revised to August 29, 1916. Paragraph topics are identical with those in the original. The number preceding each paragraph corresponds to the number of the page on which may be found the same subject in the original. For those who may be said to have graduated in military law the information contained in the following pages will be found useful as an aid to the memory in quick preparation for an examination. It is hoped this little work may serve the convenient end of reducing to a minimum the drudgery of reading many pages of subject-matter with which the student, is already presumed to be familiar. Practical application in the training of these techniques will be conducted in strict adherence with training procedures outlined in this manual as well as by conducting a thorough operational risk assessment for all training. "This pamphlet contains a short history of the preparation of the Manual ... together with brief discussions of the legal and legislative considerations involved in the drafting of the book."--Pref. "This text is designed to give the advanced Air Force ROTC student an over-all view of the military justice system, of how it operates in the Air Force, and of the general responsibilities of those in 'authority or command' who must administer the system. And, above all, it is hoped that the text will engender a feeling that military justice is directly, intimately, and essentially concerned with human conduct - rather than with arbitrary rules, legalistic distinctions, and inflexible classifications"--Pref. goes well beyond its stated purpose to offer a great deal of historical and jurisprudential information. Davis [1847-1914] examines the authority and sources of military law and its relation to civilian law. He also pays close attention to its debt to English military law and custom, some of it dating back to the middle ages. Davis [1847-1914] was Judge-Advocate General of the U.S. Army and Professor of Law at West Point.
