I'm Just Saying May 30 2021 The contents of this book are a compilation of short commentaries about politics and life in general. These commentaries are presented in chronological order, beginning with the latest (August 2010), and ending with the earliest (June 2008). The objective of the commentaries is to foster a new awareness for the reader by being exposed to new and different ways of looking at and understanding some of the things that affect us all everyday. At the very least, the views, opinions and ideas presented herein should be a refreshing departure from the

fare offered by the mass media and their established "talking heads and columnists." It is the opinion of the author that the mass media commentary we all are subjected to on a daily basis is not necessarily relevant to the large majority of citizens because they are made by those who rarely share the same stress of living that most of us do in our everyday lives. So, it is the sincere aspiration of the author that a new awareness and perspective about politics and life in general will result upon reading these humble offerings. Ronald L Clark was born in Indianapolis, Indiana and is the father of four children. Most of his professional years have been involved in design engineering for the United States Navy. He is the holder of a number of patents and was the Science and Technology leader at the Naval Air Warfare Center that featured a technical career that highlights system engineering as the most rewarding of his technical endeavors. He is an avid sailor and still enjoys hitting the links when the sun is shining brightly.

Really!?! Apr 09 2022 REALLY!?! is the story of privilege and purgatory . . . and the road traveled to both. Told as a series of uniquely lampooning and insightful

anecdotal observations, Marc Freden quite literally travels the world, as the host of a British television series, to find out just where and who he is in the world. REALLY!?! takes on such lauded institutions as Hollywood, Catholicism, the British Monarchy and fame while exploring Freden's personal vulnerability in dealing with homosexuality, depression, molestation and relationships. It's written with his unique blend of raw, self-deprecating humor and honesty—the same winning combination that made him a true international television personality.

Cellophane Jan 18 2023 This is the unfortunate story of a serial killer that could have been avoided. How? By the individual seeking help with his personality disorder. But as the saying goes, You can see a fly on someone else, but you cant see an elephant on yourself. Stanley, who worked for an insurance company, wanted desperately to advance. A few things stood in his way. He was devoid of a personality that made it difficult to be liked by his fellow workers. He totally lacked any communicative or motivation skills that made his supervisors not consider him as a leader in any sense. Annual cost of living raises, yes;

promotions to a leadership position, no. Instead of seeking help, Stanley decided to make his own claim to fame and punish those along the way that had mocked him. He thought of himself as invisible, but placed the blame on all those around him. Put all this together and you have Mr. Cellophane. They will come to know me and pay dearly for their ignorance in not acknowledging my superiority! A monster has been turned loose.

American Musical Theatre Oct 03 2021 Hailed as "absolutely the best reference book on its subject" by Newsweek, *American Musical Theatre: A Chronicle* covers more than 250 years of musical theatre in the United States, from a 1735 South Carolina production of *Flora, or Hob in the Well* to *The Addams Family* in 2010. Authors Gerald Bordman and Richard Norton write an engaging narrative blending history, critical analysis, and lively description to illustrate the transformation of American musical theatre through such incarnations as the ballad opera, revue, Golden Age musical, rock musical, Disney musical, and, with 2010's *American Idiot*, even the punk musical. The Chronicle is arranged chronologically and is fully indexed

according to names of shows, songs, and people involved, for easy searching and browsing. Chapters range from the "Prologue," which traces the origins of American musical theater to 1866, through several "intermissions" (for instance, "Broadway's Response to the Swing Era, 1937-1942") and up to "Act Seven," the theatre of the twenty-first century. This last chapter covers the dramatic changes in musical theatre since the last edition published—whereas Fosse, a choreography-heavy revue, won the 1999 Tony for Best Musical, the 2008 award went to In the Heights, which combines hip-hop, rap, meringue and salsa unlike any musical before it. Other groundbreaking and/or box-office-breaking shows covered for the first time include Avenue Q, The Producers, Billy Elliot, Jersey Boys, Monty Python's Spamalot, Wicked, Hairspray, Urinetown the Musical, and Spring Awakening. Discussion of these shows incorporates plot synopses, names of principal players, descriptions of scenery and costumes, and critical reactions. In addition, short biographies interspersed throughout the text colorfully depict the creative minds that shaped the most influential musicals. Collectively,

these elements create the most comprehensive, authoritative history of musical theatre in this country and make this an essential resource for students, scholars, performers, dramaturges, and musical enthusiasts.

Fake Silk Sep 02 2021 When a new technology makes people ill, how high does the body count have to be before protective steps are taken? This disturbing book tells a dark story of hazardous manufacturing, poisonous materials, environmental abuses, political machinations, and economics trumping safety concerns. It explores the century-long history of "fake silk," or cellulose viscose, used to produce such products as rayon textiles and tires, cellophane, and everyday kitchen sponges. Paul Blanc uncovers the grim history of a product that crippled and even served a death sentence to many industry workers while also releasing toxic carbon disulfide into the environment. Viscose, an innovative and lucrative product first introduced in the early twentieth century, quickly became a multinational

corporate enterprise. Blanc investigates industry practices from the beginning through two highly profitable world wars, the midcentury export of hazardous manufacturing to developing countries, and the current "greenwashing" of viscose as an eco-friendly product. Deeply researched and boldly presented, this book brings to light an industrial hazard whose egregious history ranks with those of asbestos, lead, and mercury.

No More Mr. Cellophane! Feb 19 2023 This book is an autobiographical description of a man's spiritual journey from brokenness to healing. He describes how as a child he learned mistrust, the feelings of abandonment and deep pain and suffering, rape, separation from his family to living in a world where he felt nearly invisible to others. But once he met his life partner, he began to find his spiritual self and with his partner's support began to put the pieces of his life together. These two men struggled over 37 years to build a strong, faith-based relationship and with therapy the author finally addressed the issues of his childhood and became, and is becoming still, the man his Creator made him to be: a wounded healer, working and dedicating his life to helping others in alleviating their own pain and suffering.

Cozy Politics Oct 23 2020 Kobrak (public administration and political science,

Western Michigan U.) distinguishes the traditional corruption of pork-barreling from cozy politics, which he says directly impacts the very nature of the political system and the relationship of citizens to their government. By cozy politics he means the reliance of politicians on big-money campaign contributions, and the political favors the contributors receive in turn. His solution is widespread citizen participation, encouraged by a restructuring of political parties and a more modest reworking of the government. Off Broadway Musicals, 1910–2007 Jul 12 2022 Despite an often unfair reputation as being less popular, less successful, or less refined than their bona-fide Broadway counterparts, Off Broadway musicals deserve their share of critical acclaim and study. A number of shows originally staged Off Broadway have gone on to their own successful Broadway runs, from the ever-popular A Chorus Line and Rent to more off-beat productions like Avenue Q and Little Shop of Horrors. And while it remains to be seen if other popular Off Broadway shows like Stomp, Blue Man Group, and Altar Boyz will make it to the larger Broadway theaters, their Off Broadway runs have been enormously successful in their own right.

This book discusses more than 1,800 Off Broadway, Off Off Broadway, showcase, and workshop musical productions. It includes detailed descriptions of Off Broadway musicals that closed in previews or in rehearsal, selected musicals that opened in Brooklyn and in New Jersey, and American operas that opened in New York, along with general overviews of Off Broadway institutions such as the Light Opera of Manhattan. The typical entry includes the name of the host theater or theaters; the opening date and number of performances; the production's cast and creative team; a list of songs; a brief plot synopsis; and general comments and reviews from the New York critics. Besides the individual entries, the book also includes a preface, a bibliography, and 21 appendices including a discography, filmography, a list of published scripts, and lists of musicals categorized by topic and composer.

Using Transparency Against Corruption in Public Procurement Jan 26 2021 This book examines corruption in public procurement in three Member States of the EU, reviewing their different approaches to combating

corruption, and the extent to which the transparency principle is applied in their procurement systems. The focus of the work is on the contrast between the unsuccessful procurement legislation of a relatively young Member State (Bulgaria) and its attempt to curb corruption by expanding the scope of application of the transparency principle, and two examples of procurement systems where corruption is limited adequately, without an excess of information procedural requirements (Germany and Austria). The book scrutinizes the transparency rules, procurement participants, and responsible institutions in the award of procurements in these countries. It discusses in detail the types of infringements involving corruption as well as their link to infringements of the transparency principle. It compares and examines the systems of control and appeal against a contracting authority's actions within the various legislative schemes, and highlights the legislative weaknesses which fail to reduce corruption. The comparative analysis between the Bulgarian public procurement system and the German and Austrian systems is carried out through detailed research not only with regard to

adherence to the transparency principle, but also to the use of other mechanisms to limit corruption, insofar as these solutions are appropriate and could be adapted in other countries currently lacking sufficient anti-corruption measures.

Making Room for Leadership Sep 14 2022 You don't just lead with your voice and your decisions. You lead with your body. The way you take up space in a room, the way you use or don't use your body in group settings, influences others. And all of us hold power to lead in our bodies. Yet, pastor and spiritual director MaryKate Morse contends, most of us are unaware of the ways we do or can use our bodies to influence others. Some of us cower in the corner, trying to hide. Others try to speak but are never heard.

Still others are the focal point as soon as they walk in a room. What makes the difference? And how can we learn to lead in our own individual way with confidence? In *Making Room for Leadership* Morse explores different types of power in the body, delineating how each type can be used for good or for harm highlights how people gain and give leadership in group settings helps you identify the kind of power you as a unique individual hold Throughout, Christ's use of power serves as the guide for how to lead in ways that are life-giving and empowering to others. We all can lead. We all have some kind of power in us. Once we become aware of our influence, we can direct it toward good, toward building others up. Doing just that in these pages, Morse helps you learn to do the same in the places you live, move and have your being.
