2021 Lippincott Pocket Drug Guide for Nurses Sep 21 2020 The 2021 Lippincott Pocket Drug Guide for Nurses provides current, vital drug information "in a nutshell." This handy pocket guide by Rebecca Tucker gives essential information on over 4,100 medications, including 48 generic drugs newly approved by the FDA, in an easy-access A-to-Z format. The "mini" drug monographs include generic and trade names, drug classes, pregnancy risk category and controlled substance schedule, "black box" warnings, indications & dosages, dose adjustments, adverse effects, drug interactions, nursing considerations, and patient teaching. A special section following the A-to-Z drugs provides essential Patient Safety information. Appendices cover topical and ophthalmic medications, laxatives, combination products, contraceptives, biological agents (vaccines), and more.

Long-Term Care Medicine Jun 18 2020 Long-Term Care Medicine: A Pocket Guide lessens the uncertainty involved in caring for patients in a long-term care facility. This practical pocket guide is divided into four sections: Introduction, Common Clinical Conditions, Psychosocial Aspects, and Special Issues in Long-Term Care. The chapters address all the varied components of the LTC system as well as how to take care of the patients and residents living within it. The contributors to this easy-to-read guide are passionate about LTC and many have worked within the American Medical Directors Association to create and disseminate a knowledge base for practitioners. Long-Term Care Medicine: A Pocket Guide is an invaluable resource for clinicians, practitioners, and educators who are seeking to optimize the care and living experience of residents in LTC by providing resident-centered care as well as resident choice, well-being, dignity, and an improved quality of life.

Adult Stroke Dosing Guide Jan 26 2021 Adult Stroke Dosing Guide - Alteplase IV Administration Conversion Reference Card - Acute Ischemic Stroke & Hypertension Treatment Labetalol Clevidipine IV Administration (~ 6.5 x 3 Inches) A LIFESAVER IN CRITICAL CARE SITUATIONS | Enjoy peace of mind knowing you don't need to worry about doses or convert pounds to kilograms; the card has them listed for you. Focus on the patient rather than the calculations. INDISPENSABLE DOSING GUIDE FOR HIGH RISK INDIVIDUALS & HEALTH CARE PROFESSIONALS | Perfect for healthcare professionals, high risk patients, families and all who want to take charge of their care, in case of a stroke. This user-friendly reference card features 3 standard IV antihypertensive (used to treat hypertension) drugs used during stroke pre-treatment, treatment, and post treatment. DOUBLE SIDED SLIDE CARD FOR TREATING PATIENTS DURING STROKE | This essential resource features pre-calculated adult IV medication dosing for Alteplase, Labetalol, Clevidipine, and Nicardipine as well as important information that medical professionals may overlook when determining safe infusion of Thrombolytics (medications designed to dissolve dangerous clots in blood vessels).POCKET SIZE FOR INSTANT ACCESS WITHOUT ANY INTERNET CONNECTION | This thrombolytic and antihypertensive management reference card is designed to fit in your pocket or medic bag so it's always within reach. Don't worry about an internet connection when you have this card as field notes.LOCKING SLIDE MECHANISM | Pocket medicine reference cards feature a slide mechanism that locks, preventing accidental turns of the dial that could result in under or over dosage. Alteplase (A Thrombolytic treatment designed to dissolve dangerous clots in blood vessels) is pre-calculated featuring the total dose (amount to administer), discard dose (access or leftover dose amount), bolus dose (usually given by infusion or injection into a blood vessel), and infusion dose (rate drug should be administered).Every second counts in an emergency. When lives are at stake, noise, panic and confusion of bystanders and victims add to the chaos. Be prepared and let the Adult Stroke Dosing Guide handle IV dosage calculations for you. Designed to ensure that emergency medical personnel don't endure additional stress in emergency situations, this handy, double-sided

Pocket Book of Hospital Care for Children Mar 16 2020 The Pocket Book is for use by doctors nurses and other health workers who are responsible for the care of young children at the first level referral hospitals. This second edition is based on evidence from several WHO updated and published clinical guidelines. It is for use in both inpatient and outpatient care in small hospitals with basic laboratory facilities and essential medicines. In some settings these guidelines can be used in any facilities where sick children are admitted for inpatient care. The Pocket Book is one of a series of documents and tools that support the Integrated

Managem.
