Zane Dupree is a charismatic 12-year-old boy of mixed race visiting a relative in New Orleans when Hurricane Katrina hits. Unexpectedly separated from all family, Zane and his dog experience the terror of Katrina's wind, rain, and horrific flooding. Jess Aarons has been practicing all summer so he can be the fastest runner in the fifth grade. And he almost is, until the new girl in school, Leslie Burke, outpaces him. The two become fast friends and spend most days in the woods behind Leslie's house, where they invent an enchanted land called Terabithia. Bridge to Terabithia was also named an ALA Notable Children's Book

and has become a touchstone of children's literature, as have many of Katherine Paterson's other novels, including *The Great Gilly Hopkins* and *Jacob Have I Loved*. Discusses the placement of over 200,000 orphaned or abandoned children in homes throughout the Midwest from 1854 to 1929 by recounting the story of one boy and his brothers. An incident at school forces sixth grader Phil Morelli, a white boy, to become aware of racial discrimination and segregation, and to seriously consider if he himself is prejudiced. Teachers facing the challenge of meeting the diverse reading needs of students will find the structure and tools they need in Jan Richardson's powerful approach to guided reading. Richardson has identified the essential components of an effective guided reading lesson: targeted assessments, data analysis that pinpoints specific strategies students need, and the use of guided writing to support the reading process. Each chapter contains planning sheets to help teachers analyze assessments in order to group students and select a teaching focus. Includes detailed, ready-to-go lesson plans for all stages of reading: emergent, early, transitional, and fluent.

Jeffrey isn't a little boy with cancer anymore. He's a teen who's in remission, but life still feels fragile. The aftereffects of treatment have left Jeffrey with an inability to be a great student or to walk without limping. His parents still worry about him. His older brother, Steven, lost it and took off to Africa to be in a drumming circle and "find himself." Jeffrey has a little soul searching to do, too, which begins with his escalating anger at Steven, an old friend who is keeping something secret, and a girl who is way out of his league but who thinks he's cute.

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat

Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. *I AM MALALA* is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. *I AM MALALA* will make you believe in the power of one person's voice to inspire change in the world.

—Rebecca Stead, Newbery Medal-winning author of *When You Reach Me* and *Goodbye Stranger* The world tilted for Elodee this year, and now it's impossible for her to be the same as she was before. Not when her feelings have such a strong grip on her heart. Not when she and her twin sister, Naomi, seem to be drifting apart. So when Elodee's mom gets a new job in Eventown, moving seems like it might just fix everything. Indeed, life in Eventown is comforting and exciting all at once. Their kitchen comes with a box of recipes for Elodee to try. Everyone takes the scenic way to school or work—past rows of rosebushes and unexpected waterfalls. On blueberry-picking field trips, every berry is perfectly ripe. Sure, there are a few odd rules, and the houses all look exactly alike, but it's easy enough to explain—until Elodee realizes that there are only three ice cream flavors in Eventown. Ever. And they play only one song in music class. Everything may be "even" in Eventown, but is there a price to pay for perfection—and pretending? "Engrossing." —New York Times Book Review

In this extraordinary novel in letters, an Indian immigrant girl in New York City and a Kentucky coal miner's son find strength and perspective by sharing their true selves across the miles. Meena and River have a lot in common:

fathers forced to work away from home to make ends meet, grandmothers who mean the world to them, and faithful dogs. But Meena is an Indian immigrant girl living in New York City's Chinatown, while River is a Kentucky coal miner's son. As Meena's family studies for citizenship exams and River's town faces devastating mountaintop removal, this unlikely pair become pen pals, sharing thoughts and, as their camaraderie deepens, discovering common ground in their disparate experiences. With honesty and humor, Meena and River bridge the miles between them, creating a friendship that inspires bravery and defeats cultural misconceptions. Narrated in two voices, each voice distinctly articulated by a separate gifted author, this chronicle of two lives powerfully conveys the great value of being and having a friend and the joys of opening our lives to others who live beneath the same sun. The New York Times bestselling guide to thinking like literature's greatest detective. "Steven Pinker meets Sir Arthur Conan Doyle" (Boston Globe), by the author of *The Confidence Game*. No fictional character is more renowned for his powers of thought and observation than Sherlock Holmes. But is his extraordinary intellect merely a gift of fiction, or can we learn to cultivate these abilities ourselves, to improve our lives at work and at home? We can, says psychologist and journalist Maria Konnikova, and in *Mastermind* she shows us how. Beginning with the "brain attic"—Holmes's metaphor for how we store information and organize knowledge—Konnikova unpacks the mental strategies that lead to clearer thinking and deeper insights. Drawing on twenty-first-century neuroscience and psychology, *Mastermind* explores Holmes's unique methods of ever-present mindfulness, astute observation, and logical deduction. In doing so, it shows how each of us, with some self-awareness and a little practice, can employ these same methods to sharpen our perceptions, solve

difficult problems, and enhance our creative powers. For Holmes aficionados and casual readers alike, Konnikova reveals how the world's most keen-eyed detective can serve as an unparalleled guide to upgrading the mind. The San Francisco Chronicle's Best of the Year List Indie Next Pick "For Reading Groups" From New York Times bestselling author Joyce Maynard, a memoir about discovering strength in the midst of great loss—"heart wrenching, inspiring, full of joy and tears and life." (Anne Lamott) In 2011, when she was in her late fifties, beloved author and journalist Joyce Maynard met the first true partner she had ever known. Jim wore a rakish hat over a good head of hair; he asked real questions and gave real answers; he loved to see Joyce shine, both in and out of the spotlight; and he didn't mind the mess she made in the kitchen. He was not the husband Joyce imagined, but he quickly became the partner she had always dreamed of. Before they met, both had believed they were done with marriage, and even after they married, Joyce resolved that no one could alter her course of determined independence. Then, just after their one-year wedding anniversary, her new husband was diagnosed with pancreatic cancer. During the nineteen months that followed, as they battled his illness together, she discovered for the first time what it really meant to be a couple—to be a true partner and to

have one. This is their story. Charting the course through their whirlwind romance, a marriage cut short by tragedy, and Joyce's return to singleness on new terms, *The Best of Us* is a heart-wrenching, ultimately life-affirming reflection on coming to understand true love through the experience of great loss. The Apollo 11 astronaut invites young people to evaluate Mars as a potential planet for human colonization, and describes what Mars residents might experience while traveling to and living on the Red Planet. #1 NEW YORK TIMES BESTSELLER • "The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon."—Andrew Solomon, author of *The Noonday Demon* With a new afterword *It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An "epoch-defining book" (The Guardian) and "this generation's Silent Spring" (The Washington Post), The Uninhabitable Earth is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. The Uninhabitable Earth is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today's. Praise for The Uninhabitable Earth "The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet."—Farhad*

Manjoo, *The New York Times* "Riveting. . . . Some readers will find Mr. Wallace-Wells's outline of possible futures alarmist. He is indeed alarmed. You should be, too."—*The Economist* "Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the 'eerily banal language of climatology' in favor of lush, rolling prose."—Jennifer Szalai, *The New York Times* "The book has potential to be this generation's *Silent Spring*."—*The Washington Post* "The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book."—Alan Weisman, *The New York Review of Books* "Engrossing . . . Coal, to borrow a phrase, is king." -- *New York Times Book Review*

In this remarkable book, Barbara Freese takes us on a rich historical journey that begins hundreds of millions of years ago and spans the globe. Prized as "the best stone in Britain" by Roman invaders who carved jewelry out of it, coal has transformed societies, launched empires, and expanded frontiers. It made China an eleventh-century superpower, inspired the Communist Manifesto, and helped the North win the American Civil War. Yet coal's transformative power has come at tremendous cost, from the blackening of our lungs and skies, to the perils of mining, to global warming. Now updated with a new chapter describing the high-stakes conflict between coal's defenders and those working to preserve a livable climate, *Coal* offers a captivating history of the mineral that helped build the modern world but now endangers our future. Winner of the Nebula Award for Best Novel • Discover the novel that launched one of science fiction's most beloved, acclaimed, and awarded trilogies: Kim Stanley Robinson's masterly near-future chronicle of interplanetary colonization. "A staggering book . . . the best novel on the colonization of Mars that has ever been written."—Arthur C. Clarke For

centuries, the barren, desolate landscape of the red planet has beckoned to humankind. Now a group of one hundred colonists begins a mission whose ultimate goal is to transform Mars into a more Earthlike planet. They will place giant satellite mirrors in Martian orbit to reflect light onto its surface. Black dust sprinkled on the polar caps will capture warmth and melt the ice. And massive tunnels drilled into the mantle will create stupendous vents of hot gases. But despite these ambitious goals, there are some who would fight to the death to prevent Mars from ever being changed. Stick and Stone are both lonely until Pinecone's teasing causes one to stick up for the other, and a solid friendship is formed. 50,000 first printing. Dad says because of the army he stood shoulder to shoulder with polar bears and watched the sun rise over the frozen fields of Alaska, which sounds really exciting. And because of the Army he slept in sludge, shoulder to shoulder with snakes and watched the sun set over the swamps of Alabama -- which does not. In a timely, but not politically charged way, author Alan Madison looks at the way a family copes with having a parent away on a 100 day, 99 night military tour of duty through the eyes of the very loveable Esmerelda (Esme) Swishback McCarthur. Esme wants to be good while her dad is away. In fact, she feels like it's her duty to be good. But being good can be hard, especially if you have a little brother like Ike. By following Esme's story, as she awaits her father's return, readers will see how heroism can translate to every member of a family. Aside from the military families that this book serves, readers who wonder what it would be like if their mother, father, brother, or sister was sent away will relate to Esme's quiet strength and candor and will understand her worry about what could happen. This story has the potential to speak to readers on a personal level and to turn a concept that seems so hard to grasp--war--into one that feels

much more personal. Middle school teachers will find everything you need to set up your classroom for maximum learning, prepare dynamite lessons, create an effective classroom management plan... and so much more! From getting ready for the first day to staying on target through June, this must-have book will be your companion for years to come. From acclaimed author of *A Wolf Called Wander*, Rosanne Parry welcomes readers into the Heartland in this tender coming-of-age story. When Brother's dad is shipped off to Iraq, along with the rest of his reserve unit, Brother must help his grandparents keep the ranch going. He's determined to maintain it just as his father left it, in the hope that doing so will ensure his father's safe return. The hardships Brother faces will not only change the ranch, but also reveal his true calling.

"RISE has truly changed the face of intervention at our school." -- Ranita Glenn, Reading Specialist and RISE instructor, Hardy Elementary School, Chattanooga, Tennessee "You are a herald for your generation....Thank you for using your voice to help us make sense of that dark day, and forge a new beginning."--Hillary Rodham Clinton, in a letter to Helaina Hovitz Helaina Hovitz was twelve years old and

in middle school just blocks away when the World Trade Center was attacked. Her memoir encapsulates the journey of a girl growing up with PTSD after living through the events firsthand. *After 9/11* chronicles its effects on a young girl at the outset of adolescence, following her as she spirals into addiction and rebellion, through loss, chaos, and confusion. The events of 9/11 were a very real part of Helaina's life and are still vivid in her memory today. Hundreds were stranded in the neighborhood, including Helaina, without phones or electricity or anyone to help. Fear and despair took over her life. It would take Helaina more than a decade to overcome the PTSD – and subsequent alcohol addiction – that went misdiagnosed and mistreated. In many ways, *After 9/11* is the story of a generation growing up in the aftermath of America's darkest day –and for one young woman, it is the story of a survivor who, after witnessing the end, got to make a new beginning. This new trade paperback edition includes tips on how to cope with trauma, an FAQ section, and a guide to discussing 9/11 with children. "Inspirational, courageous and beautifully told. *After 9/11* is a testament to the resiliency of the human spirit." – Cathy Free, correspondent, PEOPLE magazine "Helaina Hovitz's engrossing narrative begins in the shadow of the twin towers with her as a backpack-toting twelve-year-old and plays out over the next fifteen years in dramatic – and sometimes distressing – detail. This impressive debut is both deeply evocative and intensely personal." – Peter Canby, Senior Editor, The New Yorker "A moving and remarkable testament to a time that changed our country, told beautifully by a young woman who never gave up hope that she could reclaim her life, no matter how grim things looked." – Sean Elder, contributor, Newsweek Presents the life of the Alabama teenager who played an integral role in the Montgomery bus strike, once by refusing to give up a bus seat, and again, by becoming a

At a time when lesbian, gay, bisexual, and transgender individuals--often referred to under the umbrella acronym LGBT--are becoming more visible in society and more socially acknowledged, clinicians and researchers are faced with incomplete information about their health status. While LGBT populations often are combined as a single entity for research and advocacy purposes, each is a distinct population group with its own specific health needs. Furthermore, the experiences of LGBT individuals are not uniform and are shaped by factors of race, ethnicity, socioeconomic status, geographical location, and age, any of which can have an effect on health-related concerns and needs. The Health of Lesbian, Gay, Bisexual, and Transgender People assesses the state of science on the health status of LGBT populations, identifies research gaps and opportunities, and outlines a research agenda for the National Institute of Health. The report examines the health status of these populations in three life stages: childhood and adolescence, early/middle adulthood, and later adulthood. At each life stage, the committee studied mental health, physical health, risks and protective factors, health services, and contextual influences. To advance understanding of the health needs of all LGBT individuals, the report finds that researchers need more data about the demographics of these populations, improved methods for collecting and analyzing data, and an increased participation of sexual and gender minorities in research. The Health of Lesbian, Gay, Bisexual, and Transgender People is a valuable resource for policymakers, federal agencies including the National Institute of Health (NIH), LGBT advocacy groups, clinicians, and service providers. *Fighter, faker, student, spy: heart-pounding action and spine-tingling suspense intertwine in an electrifying debut for fans of emotional thrillers with just the*
